

EXAM MASTER

MASTER JEE ADVANCED

The JEE Advanced mock test website serves as an essential resource for students preparing for the JEE Advanced examination. It offers a user-friendly interface that allows candidates to simulate real exam conditions through mock tests. The website is designed to enhance the learning experience by providing various resources to help students understand their strengths and weaknesses.

OUR TEAM: -

1. Jenil Prajapati – U24CS107
2. Vineet Gupta – U24CS117
3. Ayushman Singh – U24CS103

Particle Models

Zero Velocity: ☐ If an object moves upstream, it is forced to **stop** and neither accelerate nor decelerate.

Variable Models: ☐ If none of the options is chosen (i.e. the description is unambiguous).

For example, in a question: "A car, [B] and [D] are the ONLY three options corresponding to the correct answer."

8/1000 Questions Correct

9. A particle of mass m is moving in a circular orbit under the influence of the central force $F(r)$ -only, corresponding to the potential energy $V(r)$ such that $V(r)$ is a positive (finite) constant and is 1/4, when the distance r is twice the radius. According to Bohr's quantization rule, the principal quantum numbers of the particle is given by 1, 2, etc. which of the following is the Bohr's constant and L is a generic vector. If n is the speed and total energy of the particle, respectively then which of the following expressions is/are correct?

☒ $r^2 = n\hbar \sqrt{\frac{1}{mE}}$

☒ $v^2 = n\hbar \sqrt{\frac{1}{mE}}$

☐ $\frac{L}{mv^2} = \sqrt{\frac{E}{m}}$

☐ $E = \frac{\hbar^2}{2m} \sqrt{\frac{E}{m}}$

Flow Diagram Of Website

1. Login/Register Page

The login form is titled "Login Here". It contains three input fields: "Username" with the value "Jenil", "E-mail" with the value "jenilp2140@gmail.com", and "Password" with masked characters. Below the password field is a "Log in" button. A link "Click here to Register" is located at the bottom of the form.

Login Page

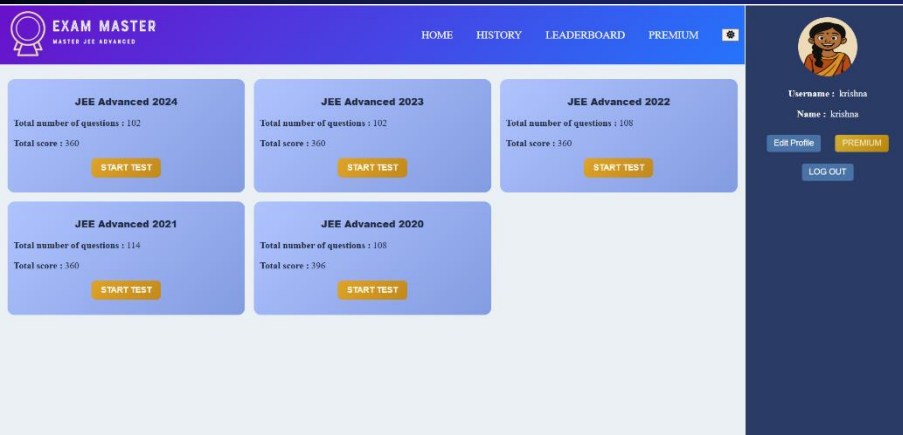

The register form is titled "Register Here". It contains four input fields: "Username" with the value "Jenil", "Password" with the value "Enter Password", "E-mail" with the value "jenilp2140@gmail.com", and "Name" with the value "jenil_Prasanna". Below the name field is an "Institute id" field with the value "Enter Institute id". A "Register" button is located below the institute id field. A link "Already have an account? Log in" is located at the bottom of the form.

Register Page

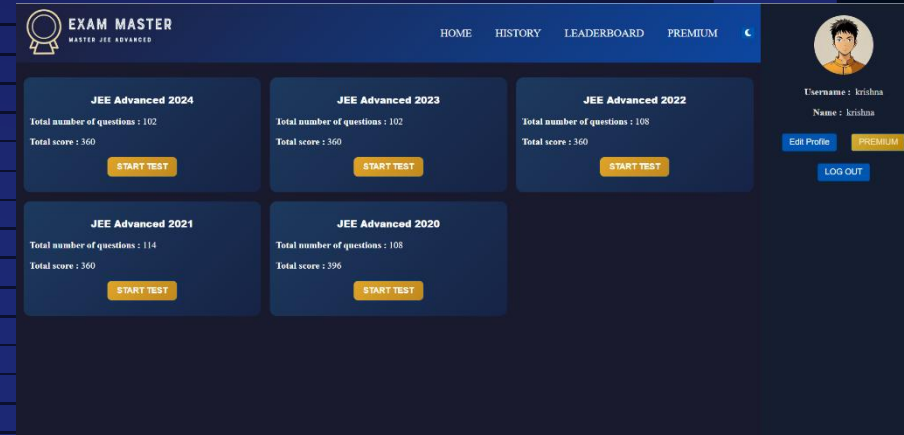

User can login through username/e-mail and password. Password validation is done through Vanilla JS (Frontend). Uniqueness of username is also handled through Backend.

Highlight - Each institute will have their own unique institute id which will be shared to users of that institute.

2. Home Page

Light Mode

Dark Mode

1. Home Page contains four sections in nav bar namely **History**, **Leaderboard**, **Resources** and **Premium**.
2. User can also switch modes.
3. User can also edit profile avatar and their name.
4. User can start test by clicking on 'Start Test' option provided in Test Card.

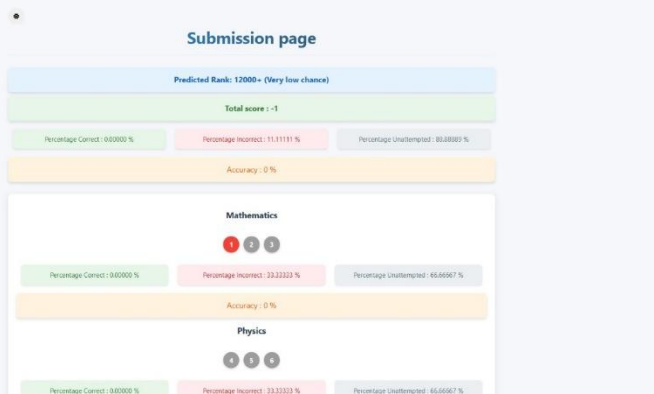

Instruction Page

Multiple Correct Type

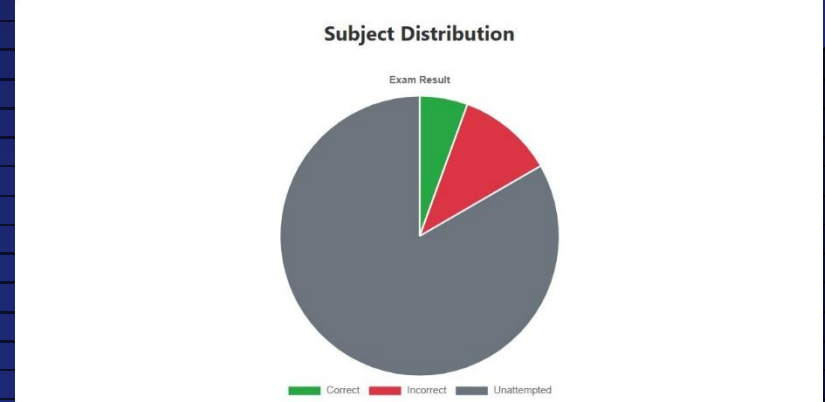

Numerical Value Type

1. Instruction page is displayed before starting test in which user read and agree to all the instructions.
2. After clicking on checkbox, user is redirected to question page. It contains instructions above each questions.
3. This contains questions of three types namely Single Correct Questions (SCQs), Multiple Correct Questions (MCQs) and Numerical questions.
4. User can select **NEXT**, **CLEAR** and **PREVIOUS** options.
5. User can navigate directly to any question using question number given in side palette.

4. Submission Page

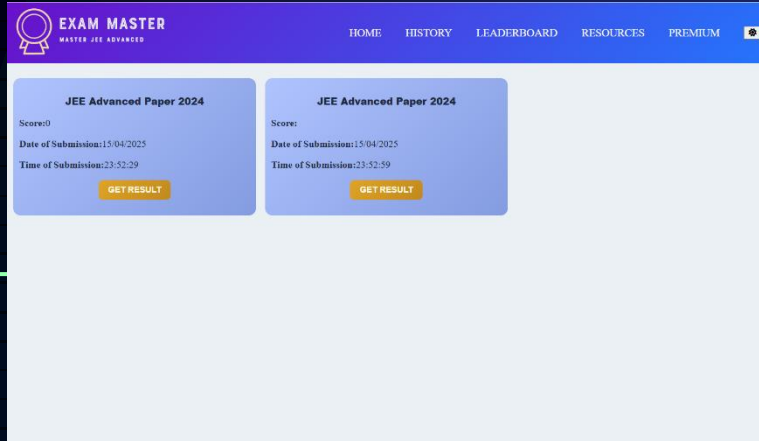

Submission Page

Attempt status Graph

1. Contains **Total score**, **%age Correct**, **%age Incorrect**, and **Accuracy**.
2. **SPECIAL FEATURE** :- Gives Predicted Rank on the basis of previous year records.
3. Subject-wise analysis
4. Attempt Status Graph

5. History and Leaderboard

The screenshot shows the 'History' page of the Exam Master application. The header is purple with the 'EXAM MASTER' logo and navigation links: HOME, HISTORY, LEADERBOARD, RESOURCES, and PREMIUM. The main content area has a light blue background and displays two identical boxes for 'JEE Advanced Paper 2024'. Each box shows a score of 0, a submission date of 15/04/2025, and a submission time of 23:52:29, with a 'GET RESULT' button. A user profile sidebar on the right shows the username 'ayushman27', name 'Ayushman', and buttons for 'Edit Profile', 'PREMIUM', and 'LOG OUT'.

TECH STACK

Front-end

AXIOS

Back-end

<%= EJS %>

mongoose

Database

Express JS

In this website, Express serves as the backbone for routing, middleware integration, and handling HTTP requests and responses, thus facilitating a fast and organized structure for the application.

Node JS

NodeJS is a runtime environment for executing JavaScript outside the browser. It enables server-side development, supports asynchronous, event-driven programming.

EJS

EJS is a simple templating language that lets you generate HTML markup with plain JavaScript. It is designed to simplify the process of rendering dynamic content in web applications.

Axios

In this website, Axios is utilized to fetch data from various resources, ensuring that users receive up-to-date information seamlessly and enhancing the overall user experience.

Mongoose

Mongoose is an ODM (Object Data Modeling) library for MongoDB and Node.js, enabling schema-based modeling. Mongoose is used to interact with the database, allowing for efficient query management and data storage.

MongoDB

MongoDB is a powerful, open-source NoSQL database that offers a document-oriented data model, providing a flexible alternative to traditional relational databases.
